

Job opening for Consultant roles

Do you want to tackle tough global issues? Would you like to promote investments that make a difference in emerging markets? Are you eager to apply hard skills and get the job done? Then you may be the new member of our select team of analysts and management consultants.

Commons Consultants is a boutique management consulting firm based in Copenhagen. We are experts in strategy, policy, project development and project finance. We believe in rolling up our sleeves to advise clients who want to deliver solutions to some of the world's most pressing problems. The firm's focus industries are energy & climate change, health care and financial services. We serve leading international institutions, corporations and investors.

Key responsibilities

You will work on assignments as part of a project team. You will carry out a variety of analytical and consulting tasks and engage with colleagues, clients and stakeholders on an on-going basis.

- Drive work streams and propose analytical approaches to address key client challenges
- Draft presentations and documents for clients and other audiences
- Acquire and distil high quality data and other information from a variety of sources
- Manage and guide the effort of our junior consultants
- Build expertise on select global issues relevant to our client base
- Shape areas of business and contribute to client development
- Contribute to developing our office environment and team spirit

What we are looking for

The ideal candidate has demonstrated strong achievements early in their career and will bring to the position excellent analytical skills, independence, and a pragmatic approach to problem-solving.

- Master's degree in economics, political science, international business, finance or related fields
- Outstanding academic performance
- Prior work experience from an organization with high professional standards in relevant fields, preferably within management/economic consulting or finance
- International experience through international work or university study
- Demonstrated quantitative analytical abilities and understanding of macroeconomics and finance
- Ability to tackle problems with independence and come up with pragmatic, practical solutions
- Attention to detail
- Strong personal impact with excellent communication and interpersonal skills
- Fluent written and spoken English and a Scandinavian language; other language skills a plus

How to apply

Interested candidates should email a cover letter, resume and transcript of academic record to recruiting@commonsconsultants.com. Deadline for applications is 15 January. We will review applications on a rolling basis and invite strong candidates to interview.
